STRICTLY NON-SECTARIANPAPER INDUSTRY FEARS
PRICE WAR

Toronto, June 15.—In a dispatch from Montreal discussing the activity of paper stocks on the Montreal market and the "situation by which Gobe says today:

"Efforts evidently have been made to find a plan which would obviate the necessity for a price war which could not help, but prove very serious for all and disastrous for some. Furthermore, it is understood that a plan has actually been submitted which, in the estimation of men well versed in the problems of the industry, would prove successful. It is understood that independent producers in production which, of course, would be one of the prime essentials in any such plan."

"Companies dissenting from the selling organization start on their new contracts at the end of this month so it may be about a month before it is learned whether the new plan will be acceptable to the industry or not."

UNSECTARIAN PUBLIC SCHOOLS

An attempt to introduce religious instruction into the public schools, or even a proposal so to do, is an infallible method of dividing a community into bitter and uncompromising factions. Parents may themselves be lukewarm in religious belief and observance, but even this class holds objects to their children being taught any doctrine that in any way conflicts with the teachings of the sect to which they nominally belong. Unhappy experience has demonstrated the controversial nature of this question and its baneful power to destroy the harmony of social life.

Yet, with all our experience to guide us, the matter keeps cropping up in different parts of the Dominion, the latest instance being supplied from Saskatchewan, where Premier Gardiner has been called on

The Power of the Pool**Lies in Volume Control**

The Canadian Wheat Pool Now Handles ONE FOURTH of the World's Exportable Wheat Surplus.

The Wheat Pool has given ample evidence of its usefulness to wheat growers since last harvest. Faced with the handling of a damaged crop and with a large increase in world production, the Pool has been successful to a considerable degree in preventing disastrous slumps. Every wheat farmer in Western Canada owes a debt of gratitude to the Wheat Pool.

The power of the Pool lies in its control of volume. Every bushel placed in the Pool means greater strength. The organization needs YOUR assistance.

The ideal of co-operation is working together for the common good. It is opposed to any system that makes a profit on the result of the labors of the producer. Its operations mean more wealth for all the producers.

Co-operation is not only a sentiment but an economic necessity. Let the hearts and minds of our farmers become enthused with its ideals and there is hope for the economic future of agriculture.

You who have not signed the Second Series Wheat Pool Contract gain nothing by delay. You only endanger the welfare of an organization that has proven the best friend the farmer has ever had.

SIGN A POOL CONTRACT NOW

to assure the Conference of the United Church that his government will do all in its power to discourage the use of religious symbols and practices in the public schools, where such practices cause dissatisfaction in the community.

This assurance, however, does not go far enough to satisfy the Conference, and by resolution it has requested the Government so to amend the School Act that all public schools should be conducted in a manner strictly unsectarian.

In the light of experience there is sound wisdom in this request, and its general application would remove a fruitful cause of friction and bitterness while it would in no way impair, or even menace the moral and religious standards of a community.

CORRESPONDENCE

Second discussion of matters of public interest is invited under the above heading. As an earnest of good faith and to insure publication, all communications to the editor must be signed by the contributor (nom de plume signature for publication if so desired). PLEA OF THE MACLEOD WOMEN'S INSTITUTE

Premier Brownlee, since his return from his European trip, has proved himself a doughty champion on behalf of the culture of the beautiful in this province. He strongly urges upon us everywhere the preservation of and developing of those lovely spots with which nature has so plentifully endowed this province, and, also, the getting rid of, and, covering up the ugly bare places by the liberal planting of trees and shrubs wherever possible. He realizes that the most famous avenue of trees in the world which he visited and through which he walked with such an appreciation of their beauty, owe their existence to men of vision, and self denial, who, hundreds of years ago, dug and planted, for the sake of generations yet unborn and bequeathed with us to do our part in our day and generation towards the beautifying of our beloved Alberta.

Perhaps some of us may not agree entirely with some of the views expressed by the Premier, but we can surely give these desires our hearty endorsement. However we are all of one mind in this respect—that the cemetery of Macleod was one of the dreariest and, most desolate spots we could visit. The Women's Institute long had it in their minds to do something to change this state of things, and, last year by a great effort, raised funds enough to buy and plant therein about one thousand trees which we are pleased to say are growing well. But this was only a small beginning—these trees now need cultivating and, some require stakes, and, there is much more planting and expense before this place can in any way become the beautiful spot we have in our minds eye.

It is sad to relate that we like the Prodigal son—we have spent all, and are in want—we hate to say unkind things but we have not received the financial support of the town for which we had hoped—yes! we have had lots of encouraging remarks—pats on the back—"go ahead sister you are doing fine," this is all very good as far as it goes, but it does not help to pay the bills. We think this is only through want of thought, and, ignorance of the true state of our finances and, now that this is made known we hope to get a hearty response to this appeal.

Remember, we are working for the sake of those who come after us, and, that future generations will reap the benefit of our efforts.

The following ladies of the committee are ready to receive donations, you can either mail it to them, or ring them up on the phone, and they will gladly call upon you: Mrs. E. CALL OF MISSIONS SOUNDED BY MACLEOD SPEAKER

from coast to coast. Altogether there were 80 delegates besides a large number of members from Vancouver and Victoria.

An address of unusual interest was delivered Tuesday in St. Andrew's Presbyterian church by Mrs. (Rev'd) David Ritchie, the Manso, Point Edward, Ontario. Mrs. Ritchie is returning from the recent council of the Women's Missionary Society of the Presbyterian Church in Canada, which was held in Vancouver, when delegates were present representing all the Presbyterians

membership had grown to 47,000, and today, in spite of the disruption and the loss of many members, the membership had again reached 45,000, and the contributions of the Society for 1927 were \$345,000.

The work is increasing instead of decreasing. She told that the actual working expenses of the society were only 2½ per cent. of the income, as almost the whole of the work was voluntary. She spoke of the work of the church in China, Japan, Formosa and other foreign stations, telling of the Venerable Dr. Geddes as the first missionary sent out by the society, and who is still doing faithful work. She said that the foreign missions had been highly honored this year by the General Assembly of the church appointing Dr. Buchanan, who is home on furlough, as moderator, the highest and most honorable position in the gift of the church.

She also told of the Home Mission work of the society, the various homes, hospitals, and social service work, meeting of immigrants on their arrival, the work of the denunciennes and training home in Toronto. She said that the society is not asking for more money but for more members, and impressed upon her hearers the necessity and privilege of joining the Auxiliary connected with St. Andrew's church.

The Rev. A. C. Wishart, who presided over the meeting, in a few words in conveying to Mrs. Ritchie a vote of thanks, said that her address had been the most informing, most inspiring and most instructive missionary address that we have had the privilege of listening to for a long time.

Contracts Let For Southern Alberta

Contracts have been awarded during the past week by the Department of Public Works for two sections of highway in the southern part of the Province. The contracts call for standard highway construction of the 25 miles from Lethbridge to Macleod, and the 30 miles between Macleod and Pincher.

Tenders will be called for within a few days on another section of road between Stirling and Lethbridge, which will practically complete the season's program in the south of the Province with the exception of a number of short links connecting up various sections of the main highways.

Construction work is also expected

to start shortly on the Wetaskiwin-Camrose road, 28 miles in length, following the route laid out by the Department of Public Works.

School Land Sales Advertised

Auction sales of Federal school lands will be held at a number of points in central and northern Alberta during the next few weeks, according to official information recently received from Ottawa.

The list of dates set for these sales is as follows: Provost, June 25; Coronation, June 28; Stettler, July 3; Red Deer, July 6; High Prairie, July 10; Falher, July 16 and Bowden, July 11.

New regulations as to the conditions of sale are being put into effect this year, the chief one being that one-tenth of the purchase price must be paid at the time of sale, instead of one-fifth, as was the case last year. The remaining payments are to be made in eighteen annual instalments, a reduction of one from the former arrangement, with interest at six per cent.

Alberta Crop Above Average Condition

Alberta's wheat crop this year is in better condition than the average for the past ten years, according to the report issued at the end of May by the Dominion Bureau of Statistics. Taking the figure of 100 as the ten year average, Alberta's spring wheat crop is shown by this report as 103, Saskatchewan's 98 and Manitoba's 105. In Ontario the average is shown as 97 and in Quebec, 100.

Alberta Beavers Shipped To Scotland

A pair of beavers from Alberta have been donated by the Dominion Government to the Edinburgh Zoological Gardens. They were captured and conditioned in Jasper National Park, transported to Montreal, and shipped on the ss. Cairnisk which sailed for Scotland on May 18.

Activity In Wainwright Oil-field

Confidence in the prospects for increased oil production in the Wainwright field is expressed by a party of Edmonton business men who visited the district during the past week. Keen interest was shown in the heavy flow of crude oil being produced on the Wainwright location and in the preparations for further development by the Wainwright company and other firms.

Alberta Cattle Shipped Overseas

Some 300 head of Alberta cattle, comprising the first shipment of live cattle to leave Canada for over a year for Great Britain, were loaded on board the ss. Manchester Regiment at Montreal on Thursday last, having been shipped direct from Calgary.

Governor General To Visit Peace River Country

A week's trip through the Peace River country during July is planned by Viscount and Lady Willingdon, according to word just received by Premier Brownlee. Their excellencies hope to leave Edmonton on their northern trip on July 15, going by train to Peace River, from there by motor to Dunvegan, then by Hudson's Bay steamboat up-river to Prince George and driving back through the Valhalla district to Grande Prairie, from where they will return by train to Edmonton. It is the intention of the Government with the co-operation of various organizations in the north, to make the excursion into the northland a real event for the governor general and his party and to show them as much as possible of the farming districts where such marked development is taking place this year.

Many Districts to Show Exhibits

Exhibits from a large number of districts throughout the Province will be shown this year at both Calgary and Edmonton exhibitions. As a result of the keen interest shown in these district exhibits in previous years it is stated that the number of localities represented in this way will be considerably increased in 1928.

In judging the exhibits points will be awarded for the best display of fruits, flowers, vegetables, root, threshed and sheep grains, forage crops, honey and other agricultural products and for the attractiveness with which the exhibits are arranged. A handsome bronze shield is offered by the Department of Agriculture for the highest-scoring district exhibit at each of the exhibitions, the shield to be won three times before becoming the permanent property of the district.

As a result of the keen interest shown in these district exhibits in previous years it is stated that the number of localities represented in this way will be considerably increased in 1928.

In judging the exhibits points will be awarded for the best display of fruits, flowers, vegetables, root,

threshed and sheep grains, forage crops, honey and other agricultural products and for the attractiveness with which the exhibits are arranged. A handsome bronze shield is offered by the Department of Agriculture for the highest-scoring district exhibit at each of the exhibitions, the shield to be won three times before becoming the permanent property of the district.

Alberta Cattle Shipped Overseas

Some 300 head of Alberta cattle, comprising the first shipment of live cattle to leave Canada for over a year for Great Britain, were loaded on board the ss. Manchester Regiment at Montreal on Thursday last, having been shipped direct from Calgary.

Governor General To Visit Peace River Country

A week's trip through the Peace River country during July is planned by Viscount and Lady Willingdon, according to word just received by Premier Brownlee. Their excellencies hope to leave Edmonton on their northern trip on July 15, going by train to Peace River, from there by motor to Dunvegan, then by Hudson's Bay steamboat up-river to Prince George and driving back through the Valhalla district to Grande Prairie, from where they will return by train to Edmonton. It is the intention of the Government with the co-operation of various organizations in the north, to make the excursion into the northland a real event for the governor general and his party and to show them as much as possible of the farming districts where such marked development is taking place this year.

Many Districts to Show Exhibits

Exhibits from a large number of districts throughout the Province will be shown this year at both Calgary and Edmonton exhibitions. The farmers throughout the Macleod district are now the personification of thankfulness for the wondrous precipitation that has occurred since Sunday last, over two inches of rain having fallen and given to the growing crops and grasses a sufficiency of moisture that will practically insure a banner yield of grain unless something very unforeseen occurs. Farmers say that the prospect for this year are better than they have had for a number of years, and they look forward to an excellent harvest this fall. The rain of ten days ago materially assisted but the present rain is far beyond the most optimistic expectation, and needless to say when the farmer himself is satisfied, the business
